ROWLOON CRICKET CLUB. The annual meeting of the Kowloon Cricket Clubstakes place to morrow night and the annual report is as follows:in presenting their annual report and statement of accounts for the year ending 31st August, 1968, the committee feel that there is considerable cause for satisfaction at the result of the year's working. The club has been placed on a sounder linaucial basis thart for a long time past. The committee decided that the time had arrived when the club should possess some more permanent structure, and thanks to the great interest shown by our President, Mr H. N. Mody, and our chairman, Mr Richardson, and members, they were able to complete the present pavilion, and that they were justified in this undertaking is amply shown in the increased attendance and the number of new members enrolled. Out of the issue of 200 debentures, «181 have been taken up. The committee desire to record their thanks to H. E. Sir, Frederick TELEPHONES 358 and 38 K. Lugard, K.C.M.G., for having kindly ating, and to all-those members and others who have made various gifts to the club, to Messrs Stewart and Libeaud the attention given by them during the construction of the building. The ground is in a better condition than in the past, the cricket pitch has been returfed and water has been a laid on, which materially assists in the eground work. The committee sanctioned (with the approval of the Government) the laying by the Amateur Athletic Associstion of a cinder track; this has greatly -improved the appearance of the ground and should tend to popularise sport in Kowhoon. It is regretted that the club alid not do well in cricket last season, there was an unfortunate slackness amongst members. At the request of a number of members bookey has been introduced and the committee are pleased to note that considerable enthusiasm displayed. C. W., Jefferies was appointed ; Captain; H. F. Stonelam, Vice Captain; and C. E. Libeaud, Hon. Secretary. The usual tennis annual tournaments have taken The Handicap Singles was won by Klimancek, with E. R. Millar runner up. The mixed doubles were won VISIT OUR SHOWROOMS by Mrs Robinson and W. N. Edwards, runners up Mrs Duncan and R. Lapsley. American tournament was won by W. N. Edwards and E. S. Fowler, Championship

#### Baseball.

Reach's All-American Stars will open the new baseball grounds which are now being Built in Maniia. Mr Jess Wood, writing to a contemporary said :- "There are many faus here and the natives are deeply interested in baseball, We have a population of 800,000 people to draw from. The American population and U. S. troops, etc. make it better than at most places we will touch. The league is constructing new grounds and they desire to have us open them. We will play there Christman week, so you see we will have a good season. That time of the year is the very best there.
One surprising thin, and that is, they are willing to bet on their own team againstus. The further I go. the more I realize the grand time that this club will have, They are already planning entertainments for the boys, We are going to get the Governor-general to throw the first ball

The Chicago Nationals liave again won the American baseball championship for 1908. The final test game was played against the New York Giants and resulted in a victory for the Chicago team by 4 runs to 2.

CURE THE WORST SANSA

Governor with regard to the destruction

of rats was laid before the members of the

The Colonial Secretary wrote that Hi

Excellency would be glad to learn whether

it was considered that the poisoning

rats on a large scale was advisable

The Governor's minute was as follows :-

As I have hinted in many precion minutes

I am heartily in accord with the policy of

this was the cruz of the problem long

before the researches of the recent Indian

Plague Commission demonstrated so con-

clusively that P. Choopsis was a practically

the sole agent in plague infection. We

sidered to be the best poison and what

animals from being injured by it or poison-

ed and when we receive their report the

Sanitary Department will have high

sed so as to avoid danger. It will also

!... for them to decide at what time it would

he best to issue the poison and prosecute

endoubtedly (a) just before the plague

cason and (b) just before and during

To Breeding season. The Bacteriologist

Could inform the Board from his ex-

amination what is the breeding season,

i.e., when most pregnant familes are

caught and whether that season coincides

with the period of the outbreak of the

minual opixootic. But the Board must not

lose sight of the equally important point

of using every effort to prevent the ingress

of rats to domestic buildings (e.g. by filling

up rat holes, by placing grating over pipes,

etc.). The P.C.M.O. observes (a) that

cats here have not the same domestic habits

as they have in England-our present

model is however India, not England-and

ents are at least as domestic here as in

(ndia; (b) that good ratting cats avoid plague

rats-that is probably true but the argu-

ment is that the presence of a est scares rate

away even if the cat does not catch many : if

rats are seared out of domestic dwellings

into the drains and sewers the carcases

it matters little even if a few cuts do cor

tract plague. This question should be again and without undue delay brought

before the Sanitary Loard in order to invite

stituting a period of general poisoning and

the methods to be idepted to minimise

danger. I am confident that should the

Attached to the minute were reports on

Colonel Reid-The distribution of poison

such as phosphorous (the effects of which

on the human system may not be im-

mediately apparent) in quantities sufficient

care and the constant supervision of each

collection and destruction of the house

refuse where the poison may have been

hid. Otherwise utensils in which food is

prepared may get contaminated and human

The Registrar General-The poison

should be in doses not big enough to kill

a child. At the end of the poisoning

period care should be taken to collect the

doses not eaten by mis or they will sooner

or later get into children's mouths. The

naturally would put in its mouth.

32 tons of rat poisoning. Mr Hooper—For all India.

amount of good it may do.

any dansor has occurred to children.

regarding the matter as a little bit serious.

fare the danger, but on the other hand,

what is the amount of danger to the

Hon. Mr E. A. Irving :- I am not

opposing the distribution of poison at all The question I asked was whether one or

more pollets was dangerous to a child, and

up these things after the period of poison-

what precaution would be taken to clear

The President—The idea is to distribute

it just before the Chinese new year so that

it will all be removed in the general clean-

Mr Shelton Hooper-I think the Chinese

His features seldon relax into a smile." 5.15 p.m.-Meeting of Kowloon Cricket The brass bound traditions of the German service have produced as officer who renders excellent service to

his War-Lord, but the freer English system, we feel convinced, produces Goods per Mongolia undelivered at 5 many more men of marked initiative and individual resource, such men, Goods per Poona not cleared at 4 p.m. of to-day need not fear comparison would find plenty of men of the right with his German comrade-in-arms, sort qualifying for commissions as Goods per Benavon undelivered after whether for keeness, intelligence, officers in His Majesty's army. Un-Noon-Meeting of Canton Insurance perved now-a-days by a type of opposed to any such sensible reform.

Office, Ld., at Mesers Jardine, Matheofficer who has been evolved by the itern logic of events. Ever since the dark, days of the Boer War there has

been a tendency to demand more and more from the Commissioned military man and so far he has responded nobly to all the calls made upon him, whether considerate or inconsiderate

But though we are getting more from him than ever, I'we have not improved his prospects or his emolu ments, and so it is not surprising to hear (complaints arising of imminent shortage in the supply All letters for publication should be written British army officers. What else Colony on behalf of the Honolula Govern-No anonymously signed communications that | could be expected? We have not increased the attractions of the Service. Browne is to occupy the chair. Orders for extra copies of the CHINA MAIL | though we expect so much more, and should be sent before II a.m. on the day after yet there are people who wonder why men are hesitating to take up the profession of arms. As the United Service Gazette points out, in discussing this Mr W. Chatham on being cross-examined Office at 5 Wyndham Street not later than 11 question, "the military career was at

one time much sought after by the sprightly youngster of good family who wished to find a gentlemanly bu work-a-day age men as well as manners have changed. The 'survival of the fittest ' is finding expression, rightstrictly practical. So the leisur commissions in the Service are becoming a vanishing number going out o charge of the arrangements.

tive, and studious, and extremely live offices than the pay and emoluments panctilious. He always behaves as if of the junior ranks. Captains and on parade, and even the youngest sub- subalterns are on scales of pay which altern has a certain impressiveness. are quite anomalous, considering the One could imagine that conquered increase in the cost of living which has peoples would invariably respect and occurred in recent years. Some excuse obey the German 'plodder,' with his for parsimony might be pleaded if the nation bore the expense of training, but, as a matter of fact, the burden falls upon the parent, and the result

is that the country obtains its supply of qualified Army officers at a much cheaper rate than is equitable of just. But the profession of arms was never, perhaps, at any time so profitable as one may suppose; and, carried out under modern and civilised conditions,

so. To-day the profession of soldiering outside numbered more than in the commissioned ranks is not only unfugrative, but impoverishing, as many of our old and once distinguished families who have followed it for many generations have discovered." Given fact, as are needed in moments satisfactory adjustment of this financial this date at Noon will be subject to of emergency. The English officer question, however, and Mr. HALDANE or professional aplomb. We are well fortunately, the policy of his party is The more's the pity.

#### AMOY NOTES.

(From Our Own Correspondent). Amova October 9.

The wedding took place on Tuesday afternoon at 3 p.m. of Miss Clara Shelboums, and Mr . Charles Lee, Messrs. Jardine, Matheson and Co.'s Agent in B Amoy, Rev. L. Lloyd, of Foochow, officiated, and Dr Moorl cad aded as best man. The bride was given away by Mr W. H. the Hongkong and Kowloon Wharp and Howard, and Miss Merz, daughter of the GODOWN Co., LIMITED, whence and/or Gorman Consul, was the only bridesmaid. The service was held in the Union Church, which was very prettily decorated with bamboo and ferns. A large number of people graced the consion with their presence. A reception was held afterwards, B at the "Banyans," the residence of Mr and Mrs W. H. Howard, which was largely All broken, chafed, and damaged Goods attended. The bride and bridegroom left about 5 p.m. amid showers of rice, and the heartiest good wishes of their many

> TENNIS, The final of the Men's Singles Open Championship took place on Monday afternoonlast. The day was all that could be desired, perhaps a little too close. The first set was remarkable one, Joseland winning by 6 games to love. The second was a hard struggle up to the last, but again resulted in Joseland winning by-7 games to 5. The cup was thus won by Joseland, much to everyone's surprise, and remains in his possession until next year, when he has to win it once more to make it a permanent possession.

The S.M.S. Gunboat Niebe arrived in port on the 8th inst., from Foochow. She is at present coaling.

COMMERCIAL. Imports for September: 11,613 piculs rice, and 312 piculs opium. A fairly large quantity of piece goods has been imported by Chinese, about 12,000 pieces. Some

4,000 piculs yarn have also come in. The import of Californian flour is increasing each year, the total quantity imported so far this year being 198,103 piculs, the amount imported this month being 13,207

Exports include 22,875 pieces hemp acking and 19,144 piculs brown sugar. SHIPPING.

The S.S. Cheang-Chew left yesterday for Swatow and the Stuits with some 400 passengers, and about \$500 freight. The Glenfalloch arrived yesterday morning from Hongkong, having made a good trip, only taking about 24 hours. The S.S. Tean came in this a.m. and leaves for Manila direct this afternoon with passengers and

RAILWAY MATTERS. Work goes on very slowly. The Directors seem to be still at logger-heads with each other, and one is beginning to despair that the line will be in running order in this generation.

The funeral of the late Mrs H. W. Old-Goods not cleared by the 19th inst., at ham took place at the Missionary Cemetery on Wednesday afternoon at 5:30 p.m. No Fire Insurance will be effected by me | service was held in the Douglas Memorial Church at 5 o'clock, when the Rev. J. Damaged packages must be left in the Beattie spoke in English, and the Rev. J. lodowns for examination by the Con-Sadler in Chinase. Mr Beattie officiated signee's and the Company's representative at the graveside, and many people showed at an appointed hour. All claims must be by their presence their deep sympathy Mask Deer,-Wong Keng

CHINESE STUDENTS IN ENGLAND.

MACKENZIE-IN THE & PAILY

As I paused in the hall of a house in West-London a party of young fellows-a association has been formed under distin half-dezen or more-swept by me, laughing guished patronage, and this summer two and chatting together, their keen glances taking everything in They were dressed great difficulty so far has been to establish in English fashion, their hair short, their friendly relations with these young fellows, clothes dark and of very fine quality, and for they are rather apt to hide themselnes their whole appearance just a little too neat and trim. At first glance one of the Chinese youth something more is were not from Japan, but from China.

unequalled opportunity of influencing the which the young Chinese could come for future of the Fast. Sir John Jordan, our | the first six months or year of their re-Minster at Peking, not long ago pointed out sidence in this country before proceeding how little we are doing to encourage the to the universities or medical schools. young Chinaman to come here, and arged | Such a place would have to be conducted that we should do more. Other Powers are with the co-operation of the Chinese more awake to the situation. France has Government It must be cheap and recently officially promoted an elaborate yet its leaders would need to be wellscheme for helping Chinese students, to picked men. It might involve a loss of settle-there-; America has given back a few thousands a year, but I could not considerable part of the Boxer indemnity, imagine money better spent in moulding and this is to be used for sending young the development of the Far East along Chinese of the official classes to that lines iriendly to England and favourable to country; Japan has established schools on the peace of the world. . . a wholesale scale and drawn many thousands to Tokyo. In England we have largely left the matter to take care of itself. affording very little or no special aid.

HOW THE STUDENTS ARE SCATTERED. -Despite our indifference, the young Chinese are arriving. Eight years ago the Chineso students in England numbered | kong to San Francisco. four or five ; to-day there are one hundred and fifty. About five hundred picked Chaise young menare now going through courses of study in Europe and America, and the number is increasing every month. Of these about half are in the United States; ninety-seven are officially maintained in Great Britain through the Chinese Legation, and probably fifty more are here unoficially. Six are in the Royal Navy. The remainder are scattered all over the country studying engineering, law, and medisine.

The unijority of these students are young men who have been selected by the Poking Government or by the viceroys of the movinces because of their special ability. Some are the soms of great merchants or of Chinese gentry whose parents are anxious that they should be qualified to lead in the reformed administration. In almost every case they are youths of exceptional power. Alike in our medical and law schools their amazing gift of memory and their cold reasoning faculties are giving them a high place. We find them already carrying off prizes in English subjects in the face of the competition of British rivals.

They have not yet had full opportunity of showing what they can do in natural science and in engineering but it is here sprobably that in the end they will prove BY ORDER OF THE MORTGAGEES. themselves at their best. One young Chinaman, Tse Tsan Tai, has invented, among other things, a steerable airship. For a time it seemed as though all the Chinese students anxious to learn Western ways would be absorbed by Auction, Japan. When I was last in Tokyo there were close on thirteen thousand young Chinese there, and several large colleges had been started by the Government especially for them Li examined the working of some of these very dusely. The teachers were, in many cases, splendid men, well qualified for their positions, and the courses of studies were well drawn up. The charges were low, and the whole effort showed, careful design. The school fees ranged from two to ten shillings a month, and the pupils could live in allied boarding establishments at a cost of 10s. a month for their rooms and 18s. a month for board.

CAUSES OF FAILURE IN JAPAN. Yes the effort, apart from military, and mayal training, has been on the whole a failure. The main cause of this is the very short time the pupils remain in Japan, the average length of residence being less than | of Marine Lot No. 264-\$182.00, and in six months. A second cause is the fact respect of Marine Lot No. 265-3208.0 that Japanese and Chinese civilisations are | Area, Marine Lot No. 264-16,351 Square 100 hearly allied to give the stimulus neces- feet, Marine Lot No. 265-18,805 Square sary if the Easterner is to obtain the best | feet or thereabouts. from Western learning. This conclusion | Each of the above Lot is held for the has been borne out by subsequent events. | unexpired residue of the term of 899 years, The Chinese students from Tokyo have commencing on the 24th day of June, 1887. done badly at the examinations, and their | For further particulars and conditions numbers have already fallen to little more of Sale, apply to than half what they were two years ago. They have won a very unenviable reputation in Tokyo owing to the lack of sufficient moral control, and they are looked upon with suspicion in China itself because of the revolutionary ideas imbibed by many of them.

This failure of the Japanese plan-a failure which of course, may be subsequently retrieved-gives the greater opportunity to countries like our own to which the pick of the students must come

in ever-growing numbers. The students have their own federation and issue an admirable bi-monthly, the World's Chinese Mudents' Journal, a wellprinted magazine of about sixty-four pages. with a cover illustrated with half-tone blocks, and written in a temper that would surprise those who have not followed recent movements in the Far East. The political articles are eminently sane and practical. Much space is given to educational developments, the start of compulsory education in Peking, the need of a new university in China, the merits of different kinds of English -colleges, the rival claims of Western and Chinese medical research, and so on. Then there are stories of old students who have been educated in the West, biographies of lady doctors, with portraits-all the ladies, of course, being purely Chinese and of men who are now tactaiz, governors, and members of the Foreign

Office in Peking.
Some of the criticisms upon Western accounts of China are pungent. For instance, I read of one famous American writer, who is accepted here as a premier authority on the Mongol, "The absurdities and crudities of his work render his writings very offensive reading to intelligent Chinese who can understand the English language"

LONELINESS IN STRANGE SURBOUNDINGS. The great problems with the young Chinese student in this country as shown Hop kong Sub. Coln by his writings in his own journal are twofold: first, poverty, and next, loneliness. The official allowance to the students is sixty tacls a month-say between £8 and £9. On this the young men berlain's Cough Remedy leads in popularity find it almost impossible to live, especially from a prompt cure of this dreaded diseaset if they have also to pay educational fees. Mr Thos. Matthew of Caledor, Ese. Tho note of loneliness runs through many Outarie, says: "I have used Chamberlain 8 of their messages. They find it difficult to Cough Remedy several times, and I try make friends here. They do not know how in keep it in the house always, I can

euddenly framen peaceful home in Shan-si or Honan, put into a strange dress, sent across the seas, and planted down in the fourth-floor back of a Bloomsbury lodging-

Some attempts have been made recently in London'to cater for the Chinese student, Lord William Ceoil Bading the way. An parties were given, one at Hatfield and one in an episcopal residence in London. The

If we are really to encourage the coming might have mistaken them for Japan- necessary. The first step should be for ese, with their brownish faces and oblique our Government to offer positive induceeyes. But a second look showed that they ments for Chinese military and naval men to be trained here. It may be objected Here was a portent - the sign in Landon | that we do not desire to foster the fighting of the coming of the new Asia! These strength of China. Of this I can only say were men who, ten or twenty years hence, that China will obtain the training somewill be rulers in their own land, and on how, and it is for us to decide whether her the impressions they receive during the tighting leaders are to be taught in our three or four years they are in England sympathetic atmosphere or in an adverse will largely depend their attitude towards one.

The second thing is to have in Landon England at the present moment has an an establishment under a strong teacher to

FROM CANADA. MATOTHERS have the same terror of IVI croup in all countries, but Chamimagine no circumstances more pathetic with croup. For sale by all chemets and than those of the young follow taken attractorers.

On Back, Chest, and Legs-Suffered Over Five Years - Consulted Several Specialists and Tried Various Remedies—Then

#### CUTICURA COMPLETELY CURED THE DISEASE

"Six years ago this summer I caught a chill through bathing while in a state of perspiration and for nearly five and a half years my back, chest, and legs were in a constant state of irritation, especially in the spring of every year. I have consulted several specialists and until I tried Cuticura Soap and Cuticura Ointment. I have used them only about six months and now my skin all over any body is as fair as the Prince of the Asturias. I shall certainly not fail to recommend the Cuticura Remedies for all skin diseases. H. Ogden Wilson, Chedworth Villa, Gloucester, Rd., Boscombe, Hants., May 14, 1907. Send to nearest depot for free Cuticura Book on Treatment of Skin Diseases.

Torturing, Disfiguring Humours Speedily Yield to Cuticura.

of itching, scaly, pimply skin, and scalp humours, with loss of hair, of infancy and childhood, are speedily, permanently, and economically cured, in the majority of cases, when all other remedies suitable for children fail. Complete Externel and Internal Trentment for Every Rumour of Intania, Children, and Addits consists of Optiours Scap to Cleanse the Skin, consists of Optiours Scap to Cleanse the Skin, and Cattelfa Pills (Chorolate Coated, in vinta of 5b) to Purily the Blood. A Single Set often Cures, Sold throughout the world. Depots; London, 27. Charterhause Sq., Taris, 5, Rue de la Pala; Australia, R. Towns & Co., sydney; South Africa, Lennon, Ltd., Capa Town, etc.; U.S. A., Potter Drug & Chem. Corp., Sole Props., Buston.

Approximate times of closing mails at Shanghai via Dalny and Siberia.

#### DR. W. E. LAMB. AMERICAN OCULIST AND OPTICIAN

KING EDWARD HOTEL ANNEXE NO. 21, Until October 16th, Inclusive.

TAS the pleasure of amouncing to the Civisens of Hongkong that he will remain B

till 16th inst., a short but sufficient time to attend to those who may wish to Co consult him if they will make an opportunity at their earliest convenience. Dr LaMB makes a specialty of Examining and Refracting the Eyes and Fitting Glasses, and he has all the modern instruments and apparatus, including the Javal F Onhthalmometer and Electric Ophthalmoscope for examining and refracting the eyes in | the most thorough and perfect manner, and according to the latest and most approved H methods as employed in the Metropolitan - Eye . Hospitals, by the best oculists abroad, J and the largest supply and greatest variety of all kinds and styles of lenses and mount- J ings of the best quality ever brought to this Colony, including over three thousand different sphero-cylindrical and prismatic lenses made specially to order for the correction of astigmatism and other Ocular troubles which the ordinary apprecial lenses commonly used will not correct. The great majority—four fifths at least of those in need of plasses, require special lenses of this kind, which are always made to order and are absolutely necessary for the perfect correction of defective vision and the permanent maintenance of perfect sight.

Those who are troubled with weak or defective vision, who suffer from eyeache, headache in the orbital region, inflammation of the eyes or lids or weakness of the ocular auscles, or any of the numerous conditions due to eye strain and necessitating the use of glasses and most of these troubles are parmanently cured by accurate refraction and properly adjusted glasses-should avail thermelves of the exceptional opportunity of having their eyes thoroughly and scientifically examined and refracted and obtaining glasses of the right kind, as this opportunity for completeness of apparatus and supply of lenses, thoroughness of examination, perfection of refraction which brings the vision up to the highest possible standard, and perfectly satisfactory results, is equal in every respect to the best obtainable anywhere abroad, as those who consult him are willing to attest.

Dr LAMB is certificated in optics as well as in medicine and has made the Eyes a specialty for over 20 years so that all glasses supplied to his patients are warranted to be correct, and having thousands of references and testimonials from influential citizens of other British Colonies which he has visited professionally he can assure those in need of his services the most thorough, reliable and suisfactory professional work. Charges Reasonable. - Consultation Fres.
